Summary information

This order form is for IDA Floating Licenses only. A floating license can be used by one user on any computer. Floating licenses require a license manager. IDA can be installed on many computers but the number of concurrent users should never exceed the number of purchased seats. In order to benefit from the discounted "additional user" prices for IDA, additional seats have to be purchased at the same time as the initial license they complement.

Renewals are possible for licenses within active support plan and also during three months after support plan expiration. The new one year support period is counted from the expiration date of the old support period. All new licenses entitle the end user to one year of support and free updates.

Purchase orders are accepted from governmental organizations and well known businesses for multiple license orders.

Electronic delivery is usually possible. Contact sales@hex-rays.com if you prefer that mode of delivery. We do not ship both physically and electronically.
